HIGH LEVEL SOLUTIONS

About Us

We're a comprehensive software development firm dedicated to prioritizing people-centric business transformations. Our expertise spans all platforms, ensuring personalized solutions for every client.

50+

innovative software developers

25+

served clients in 25+ countries

70+

satisfied clients around the globe

Our History

2021

Dubai office launch

In 2022, we expanded our global footprint by inaugurating our Dubai office. This strategic move allowed us to tap into new markets and leverage the talent pool in the region, driving further growth and innovation.

Company founded

In 2021, our company was founded in Lebanon with a vision to revolutionize the tech industry. With a team of passionate innovators, we set out to create cutting-edge solutions that empower businesses worldwide.

2022

Series C funding

In 2023, we secured Series C funding, a testament to the confidence investors have in our vision and capabilities. This significant milestone provided us with the resources needed to scale our operations, enhance our products, and accelerate our market expansion efforts.

2023

Initial Public Offering (IPO)

In 2024, we successfully went public with our Initial Public Offering (IPO), marking a new chapter in our journey. This milestone not only provided liquidity to our early investors but also enabled us to access the public markets for additional capital to fuel our future growth initiatives.

2024

A person is seen from the side, working on a laptop. The entire image is overlaid with a semi-transparent red filter. The laptop screen displays a complex web application with various data fields, tables, and charts. The person's hand is visible near the laptop. The background is dark and out of focus.

Our Team

Our team is comprised of dedicated professionals who possess a diverse range of skills and expertise collaborating seamlessly, we leverage our collective knowledge to tackle challenges with creativity and precision. Each member brings a unique perspective, contributing to our dynamic and innovative approach to problem-solving. Together, we strive for excellence and continuously push the boundaries of what is possible in our field.

Our Values

Innovation at Core

We foster a culture of creativity & experimentation, embracing innovative solutions to drive continuous improvement.

Integrity in Action

We uphold the highest ethical standards, demonstrating honesty, transparency, and accountability in all our endeavors.

Continuous Evolving

We prioritize adaptation and improvement, continuously evolving to provide innovative, high-quality solutions that seamlessly align with our clients' evolving needs.

Constant Adaptability

We embrace change and challenges with resilience, adapting quickly to evolving needs and circumstances to drive continued success.

Our Services

Customized Software Solutions

We create customized software solutions to match your business needs precisely. Working closely with you, we develop new applications or adapt existing ones to meet your goals effectively.

Software Development Talent as a Service

Our Talent as a Service offers skilled developers without the need to hire them yourself. Whether you need help for a short project or want to strengthen your team long-term, we handle it all seamlessly.

Off-the-Shelf Projects

Our ready-made projects swiftly solve common business problems by offering a variety of pre-built software solutions without delays, and we customize them to precisely fit your needs.

IT Audit & Consultancy

Optimize your IT performance with our audit and consultancy services, where our experts assess your systems and provide strategic guidance to meet your business goals, covering cybersecurity and compliance.

Software Quality Assurance & Test Automation

Our quality assurance and test automation services guarantee that your applications meet top standards by using various methods like functional and load testing to catch issues before they affect users.

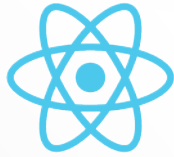

Requirements Engineering

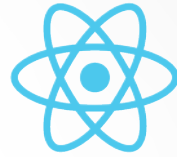

We define and document project needs thoroughly to create customized solutions, ensuring client satisfaction through deep problem understanding, clear specifications, and ongoing collaboration.

Technology

Frontend

React native

React js

Kotlin

Swift

Backend

Node Js

Java Springboot

Cloud

Aws

Google Cloud

ORACLE

Oracle

Microsoft Azure

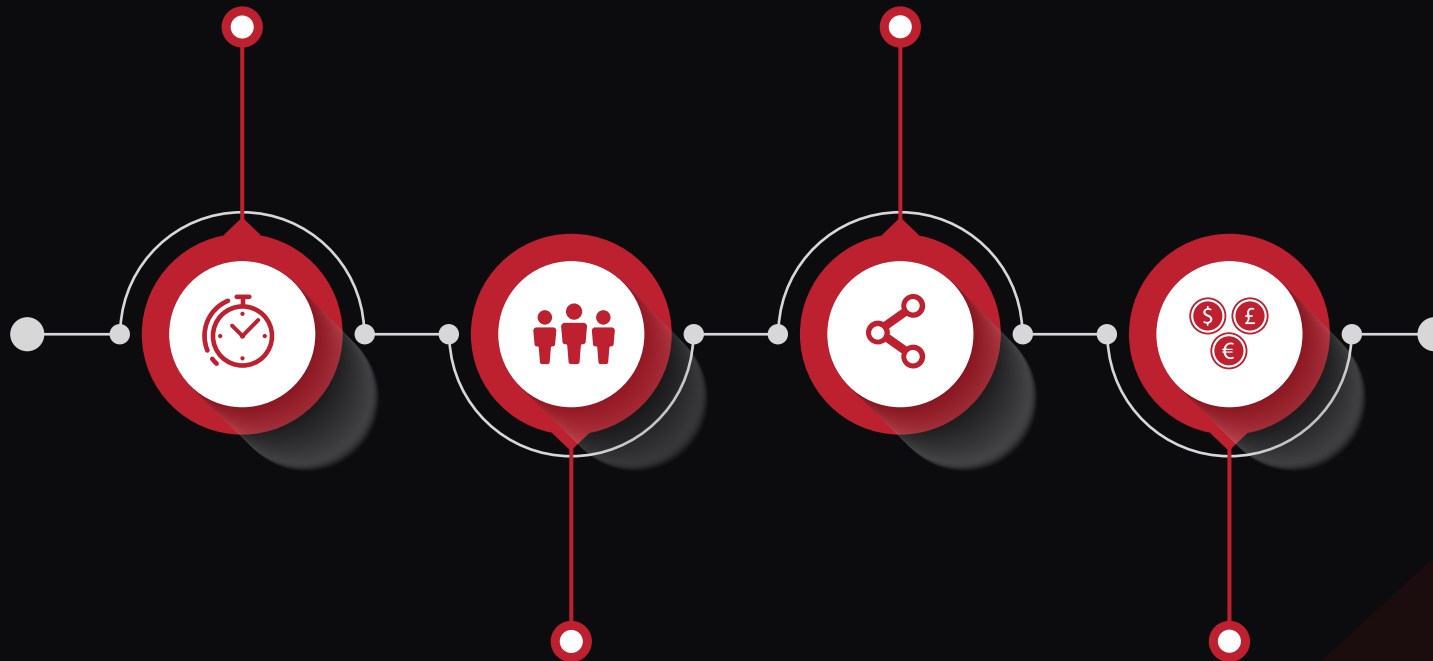

Our Workflow

Time & Material

The time & material pricing model bills based on actual project hours & resources used.

Hybrid

A hybrid model combines fixed-price & time & material structures for cost certainty & flexibility.

Dedicated Team

A dedicated team provides exclusive expertise & support for a client's project

Target Price

Target price is the client or project manager's desired cost goal during project execution, often used with incentive-based contracts.
